

Our Vision

We envision a world where all people act together as a global community to ensure children have access to education, healthcare, and a safe home.

Our Mission

Uniting people to improve the lives of children.

One World is a nonprofit organization committed to improving the lives of children affected by poverty. We do this by engaging individuals in the US as global philanthropists, who raise funds and awareness for effective grassroots organizations serving children with education, healthcare, and shelter.

Our Values

Community, Compassion, Respect, Reciprocity, Transparency, Generosity

The Champion Model

One World's Champion Model is an effective and innovative way to unite global citizens in the United States with effective grassroots organizations around the world. People who have never fundraised before, or never considered themselves philanthropists, have become Champions creating incredible results.

As we speak, they are supplying resources to build schools, funding vaccination programs, feeding, housing and educating street kids, educating girls, and getting at-risk teens into vocational training.

"100% of donations raised by One World Champions goes to support our Partners. One World does not charge fees."

The One World Champion Model

Thriving Children are a source of inspiration and pride for all of us

100% of funds raised for our Partners goes directly to support their work

Grassroots Partners provide children in their local regions with shelter, healthcare and education

One World offers tax-exempt status, training and outreach to our Champions

One World Champions are volunteers in the US who raise money and awareness for our Partners

YES! I want to make a difference!

Enclosed is my check for \$ _____ made out to *One World Children's Fund*

Automatic charge from my credit card:

Visa MasterCard

Card # _____
